Personal Profile

I am a front-end web developer with substantial work experience in structuring, developing, and implementing interactive websites. Passionate about web programming, have worked with several web front-end and back-end technologies. I am self-motivated, organised, and quick to learn, with excellent technical skills and problem-solving abilities.

Portfolio Website

Web Development Work, *A showcase of my projects and my abilities* [🔗](#)

Work History Projects

August 2022

website designer - developer, *Web Design Company's Website - Web Craft Station* [🔗](#)
Designed, created, and launched this 53-page all-device fully responsive website. I produced a modern, easy-to-use, and sector-appropriate user interface for this bespoke web design to instantly communicate with potential customers. Developed a custom-built portfolio of 3 individual projects linking to this website.

September 2021

website designer - developer, *Affiliate Marketing Website - Supplement Insights* [🔗](#)
Built an Amazon eCommerce affiliate 454-page site and blog with WordPress. Linking more than 1,000 products, installing plugins for forms, a quick product search bar, and using analytics to monitor visits and sales. Designed logos and mockups, developed web pages, created custom widgets, bug resolution and application migration, image and content optimization and so on.

November 2020

website designer - developer,
Website for a Provider of Translation Services - Leeds Translations [🔗](#)
While building this 72-page website, I made a brand new, fully responsive web design layout. Designed, developed, and tested CSS3, HTML5, and JavaScript that meet accessibility and web browser standards for the website. Optimized the application for speed and scalability with page load times less than ~2 seconds.

December 2019

website designer - developer,
The Website for Personal Training Services Provider - Fitness Designs [🔗](#)
Designed, developed, and hosted this 52-page, all-device fully responsive website. Successfully optimized this website for speed and SEO, which improved page rank by ~75%. Performed the duty of fixing the technical issues related to the design and programming of this website. Consistently developing this website by adding more content and improving SEO metrics, as well as its social media presence.

Personal Skills

Creative spirit · time management · attention to detail · reliable & professional · problem solving · good powers of observation · strong communication skills · organised · critical thinking · foreign languages

Qualifications

October 2020	Advanced jQuery Course , <i>Joe Parys Academy</i>

Hobbies & Interests

- Web Development - always try to listen to weekly podcasts with the latest Front-end development news and talks.
- Hi-Tech news in general. New revolutionary gadget coming out? I have to know everything about it.
- I enjoy learning new languages and cultures, keeping up with current events, and travelling. Currently fluent in 4 languages, English, Lithuanian, Spanish, and Russian, with a keen interest in learning Portuguese and German.
